EDUCATION

Software Engineering
Bayero University, Kano
08/2021 - Present

PERSONAL PROJECTS

Weather App (08/2022 - 08/2022)
- I built a weather application to display the weather conditions of over 200k cities with a change of background depending on the weather condition and time of day of the particular city.
- I made use of HTML, CSS, JavaScript(ES6), and API.
- Weather App - https://weather-app-tau-liard.vercel.app/ .

Interactive Form (08/2022 - 08/2022)
- I built an interactive card details form with an active form validation system and a thank you page after all fields have been filled.
- I made use of HTML, CSS, and JavaScript.
- Interacti form - https://interactive-form-beta.vercel.app/ .
